Industrial Grade Software Solution for Pen Based Systems

My-T-Pen interfaces within the Windows environment seamlessly, allowing any Pen, Ruggedized, or Tablet PC to eliminate the need for a physical keyboard. My-T-Pen OnScreen Keyboards and panels enhance ALL applications by providing a powerful set of utilities for enabling and controling user input. My-T-Pen integrates completely with any Tablet PC.
Advanced Features

My-T-Pen includes features such as Network Logon and a password protected Supervisor / Operator mode to secure configurations, custom keyboard layout support thru IMG's Build-A-Board, and can be integrated into any application with its Developers Kit.

The World's Premier On-Screen Keyboard!

The Keyboard panel supports over 65 countries with 200+ layouts, including QWERTY, ABC, DVORAK, International, and custom layouts created with IMG's Build-A-Board. My-T-Pen provides a powerful solution for all commercial, consumer, industrial, educational, and institutional needs. The "Heads-up Display" concept keeps the user's focus on the screen at all times. Edit, Numeric, and Macro Panels are also selectable as individual panels.

Unlimited Macro Panels

Unlimited Macro Panels can be created for any task, providing flexibility and ease of use. A single Click can replace hundreds of Keystrokes, allowing Users to replace repetitive tasks, and complete complex functions with a single action. The Visual aspect of My-T-Pen macros make them intuitive to new users and advanced users alike. Macro panels can even launch applications, or automatically open when you open your favorite application!

MICROSOFT WINDOWS COMPATIBLE

- *"Excellent Software," "Easy to use," "I Love It!," "Thanks!," "Cool!," "Great!", "High Qualilty"* My-T-Pen Users

- *"I can see it would become indispensable for many kinds of Windows work."* Brian Livingston, InfoWorld

My-T-Pen®

On-screen Keyboards!

Virtual Keyboard interface provides a heads-up display that creates an entirely new way to operate Windows - Enables access to all system functions from single input device

200+ US & International keyboard layouts

Acts Exactly like a physical keyboard!

Edit & Numeric Keypad available as separate panels

Creates easy way to implement solutions for data input

Floats above all other windows for intuitive operation

Includes NT/2k/XP/Vista Logon Keyboard module

Works with ALL Windows applications!

Features & Functions...

Comprehensive Setup Application, Help, and Advanced User Notes included

Supervisor / Operator Modes allow secure configurations, with password protected Setup - prevents unauthorized access from operators.

Show & Hide Keys can control users' access within secure applications

Over 60 different User selectable button actions, such as click, toggle, double-click, Esc, F1, Enter, Delete, Alt-F4, Ctrl-Esc, etc.

Keystroke Macro features allow user to build keystroke sequences and assign them to Macro buttons, grouped on separate Macro Panels

Macro Panels can be tied to specific applications, so they open automatically when the appropriate window becomes active
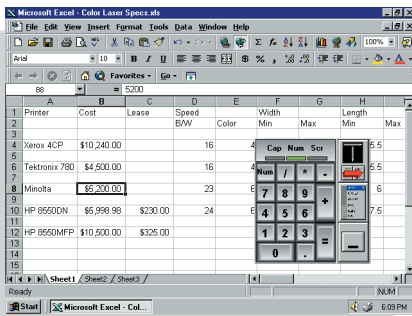

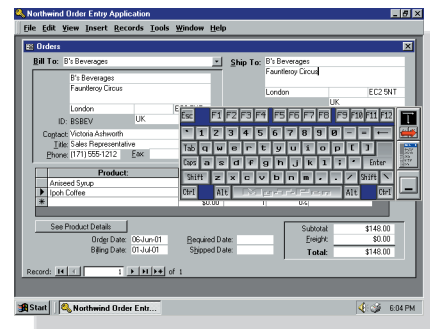

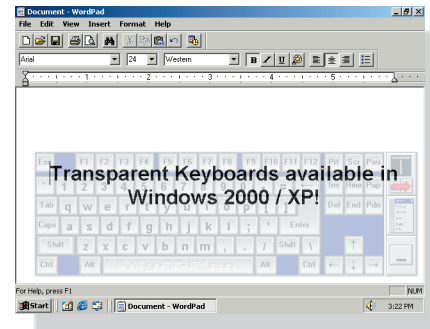

200+ International Keyboard layouts provide flexibility. Alphabetic (ABC) keyboard offers new users an easily understood interface. Standard 101 (QWERTY) is compatible with industry standard layout. 3 Dvorak layouts also included.

Minimize to Button feature, Automatic positioning, Key remapping, and other special features allow compatibility & easy to implement solutions

Secure Network Logon options enable complete operation from pointing device

Advanced Settings give power users additional features & control options

Developer's Kit is included, and provides a wealth of integration code & examples

Powerful Software!
