My-T-Soft TS

On-screen Keyboards!
Virtual Keyboard interface provides a heads-up display that creates an entirely new way to operate Windows
Over 200 International, Alphabetic, Standard & Dvorak layouts available
Acts Exactly like a physical keyboard!
Edit & Numeric Keypad available as separate panels
Keystroke Macro features allow user to build keystroke sequences and assign them to Macro buttons, grouped on separate Macro Panels
Macro Panels can be tied to specific applications, so they open automatically when the appropriate window becomes active
Over 200 International Keyboard layouts provide flexibility, Alphabetic (ABC) keyboard allows new users an easily understood interface. Standard 101/104 (QWERTY) layouts compatible with industry standards. 3 Dvorak layouts also included.

Features & Functions...
Comprehensive Setup Application included
Supervisor / Operator Modes allow secure configurations, with password protected Setup
Show & Hide Keys can control users' access within secure applications
Over 60 different User selectable button actions, such as click, toggle, double-click, Esc, F1, Enter, Delete, Alt-F4, Ctrl-Esc, etc.
Keystroke Macro features allow user to build keystroke sequences and assign them to Macro buttons, grouped on separate Macro Panels

Powerful Software!
Terminal Server Client or Remote Desktop Access
Ideal for wired or wireless thin-client, hand-held, or touchscreen based solutions
Works with Touchscreens, Pens, Touchpads, and any other Traditional devices compatible with Citrix or Microsoft clients.

Includes Developer’s Kit
Network Logon Module
Infinite sizing & 3D Keys

Advanced Features
Unlimited Macro Panels
Edit & Numeric Keypad available as separate panels
Acts Exactly like a physical keyboard!
Over 200 International, Alphabetic, Standard & Dvorak layouts available
Terminal Server Support!
My-T-Soft TS interfaces within the Windows environment seamlessly, allowing any pointing device to eliminate the need for a physical keyboard! Any Mouse, Pen, Tablet, or Touchscreen based system can take advantage of the My-T-Soft TS On-Screen Keyboards and panels in all graphic modes & hardware configurations.

Terminal Server Support!
My-T-Soft TS interfaces within the Windows environment seamlessly, allowing any pointing device to eliminate the need for a physical keyboard! My-Touch provides a powerful solution for all commercial, consumer, industrial, educational, and institutional needs. The “Heads-up Display” concept keeps the user’s focus on the screen at all times. Edit, Numeric, and Macro Panels are also selectable as individual panels.

Industrial Grade Software Solution for ALL Pointing Devices!
Over 200 International, Alphabetic, Standard & Dvorak layouts available
Any Mouse, Pen, Tablet, or Touchscreen based system can take advantage allowing any pointing device to eliminate the need for a physical keyboard!

Powerful Software!
Terminal Server Client or Remote Desktop Access
Ideal for wired or wireless thin-client, hand-held, or touchscreen based solutions
Works with Touchscreens, Pens, TOUCHPads, and any other Traditional devices compatible with Citrix or Microsoft clients.

Unlimited Macro Panels
Unlimited Macro Panels can be created for any task, providing flexibility and ease of use. A single Click can replace hundreds of keystrokes, allowing users to replace repetitive tasks, and complete complex functions with a single action. The Visual aspect of My-T-Soft macros make them intuitive to new users and advanced users alike. Macro panels can even launch applications, or automatically open when you open your favorite application!

Unlimited Macro Panels are available.

Advanced Features
My-T-Soft TS includes features such as the Network Logon Module and a password protected Supervisor / Operator mode to secure configurations. The Virtual Keyboard Interface allows complete operation within the Windows environment from any pointing device for all TS supported thin-clients!
